# INTRODUCTION

It is always impossible until it is done - **Nelson Mandela**

(Madiba) Freedom to create wealth and value is one of the most vital parts of a thriving community, inspired by one of the greatest legends of Africa, Nelson Mandela, who always championed freedom, education and equality.

We are building a community centred on these set of values.

## OUR VISION

Creating a community and a Token, that's driven by our collective value is not enough for sustainability. Hence, we are building utilities that will serve as the backbone for the constant growth of the value of our community and this project. These utilities will be broken down into five Products, MadibaStake and MadibaSwap will be live from the inception of this project. The multiple Utility will drive the massive adoption of \$DIBA Token. Thereby, increasing its value greatly. The vision is to create an intrinsic connection between the Madiba community, the Madiba Utilities, the Blockchain ecosystem and the world at large, in a way that wealth is created, all community members are equal and absolute freedom is given to all.

## OUR MISSION

Our mission is to create a community that enables everyone to rise in wealth and value through a community-driven system that gives an equal chance for all to grow and achieve their goals. With the \$Diba Token, Madiba Stake, Madiba Swap, Madiba P2E Gamezone, Madiba NFT Liquidity Pool and Collections, Madiba DAO, this is how we plan to create a system of wealth, value and equality for all members of our community. The Madiba utilities, the Blockchain ecosystem and the world at large, in a way that wealth is created, all community members are equal and absolute freedom is given to all. Madiba Stake and Swap the Madiba NFT Collection.

# THE MADIBA TOKEN (\$DIBA)

These utilities will be broken down into five products, MadibaStake and MadibaSwap will be live from the Inception of this project. The multiple Utility will drive the massive adoption of \$DIBA token. Thereby, increasing its value greatly. The vision is to create an intrinsic connection between the Madibs community. The Madiba Utilities, the Blockchain ecosystem and the world at large, in a way that wealth is created, all community members are equal and absolute freedom is given to all.

# TOKENOMICS

● Total supply:  
**1,000,000,000 DIBA**

● Private Sale:  
**50,000,000 DIBA**

● Public Presale:  
**250,000,000 DIBA**

● Liquidity:  
**175,000,000 DIBA**  
(locked up for 10 years )

● Reward:  
**495,000,000 DIBA**

● Team:  
**30,000,000 DIBA**

## TAXES

Buy Tax (9%)

Dev & Marketing 6%

Liquidity 3% Sell Tax (99%)

Dev & Marketing 6%

Liquidity 3%

## SALES

**Public Sale:** To be determined when presale ends.

**Private Sale price:** To be determined upon the completion of public sale.

**Private Sale:** Buyers will be rewarded with 100% profit on their purchased DIBA token upon completion of the Public sale, before launching on Apeswap and Pancakeswap.

**Apeswap and Pancakeswap:** Same as whatever price arrived at upon the completion of public sale.

## DIBA SWAP

Madiba Swap will serve as our flagship product for value creation for our members and others who wish to use its services. It will be a DEX platform built on the Binance Smart Chain with features like staking and farming with very juicy APR rates for holders of the \$DIBA token. This platform will host any external project token of the members of our community, as it will help. Their projects get liquidity and distribution faster!

These PFPs will also help drive the marketing of the project better and provide a strong image and representation of our community in public and on social media as members can use them as their profile pictures across different social media platforms. The collection will be created on the BSC and posses a burn function that can convert each NFT to \$DIBA Tokens depending on their rarity. We will also set aside funds to encourage and supports other artists and creators who want to develop projects in our community.

## NFT COLLECTION

Art is a strong part of our heritage as a people and we love them. NFTs have become one of the best ways to optimize their value. The Madiba project has partnered with Klynnox labs the creators of the infamous Hall of Royals project to create a 1000 PFP collection of art that portrays our inspiration for this project, Nelson Mandela in very glorious form.

# DIBA MINDS

DIBA MINDS brand is an ecosystem for our immediate community art lovers, gamers, tech enthusiasts and regular consumers of our project.

The brand is the backbone of this project and so creating an authentic way for each member to relate with each other, brainstorm, participate and propose new idea, projects and to vote and arrive at a consensus on several and in turn get benefits from Madiba. Such as grants, opportunities to sell out their innovations and so on.

It is one of the main reasons we created the "DIBA MINDS JAUNT" (DMJ). See more info about it on our Pitch Deck.

## NFT LIQUIDITY

Though NFTs are revolutionizing art, they are still illiquid assets and so to solve that we are creating an NFT liquidity pool that allows members to sell their NFTs from several collections at floor price in an instant and also buy any NFT in the pool at floor price regardless of the rarity trait of said NFT.

The pool will also have a burn function for NFTs created by the Madiba project where member scan burn their NFTs for \$DIBA Tokens.

## P2E GAMES

GameFi and the metaverse are rapidly creating an evolution in the world of gaming today, with Play-to-Earn games changing the narrative around games.

We will be creating a Game zone driven by Peer-to-Peer and online multi-player style games that players can participate and win substantial amounts of \$DIBA in prizes, this game zone will also serve as a launchpad for game creators in the community and some funds will be set aside to fund and attract game creators and developers to the community.

We will partner with several gaming startups and labs and we will be launching two games shortly after Token launch, Diamond Rush and Traders lotto, these games are lots of fun and have an interesting reward system embedded in them.

# KEY NOTES

## FUNCTION OF THE DEV & MARKETING WALLET

-Employed MODS Salary payment.

-Marketing & Promotions. Manual \$Diba buy-back and burn at a certain milestone. Subject to the community's unanimous decision via the Madiba DAO.

## PUBLIC PRESALE PROCEED

-70% of total raised BNB goes to Apeswap as liquidity, paired against the provided liquidity tokens (175,000,000 DIBA)

-30% of total raised BNB will be spent on:

-Products development and Massive marketing. Dev team expenses refund.

## WHALE AND DUMP CONTROL

The 100% private sales reward to be released after public sale on Apeswap.

-Presale buying for all public sale buyer equal footing, Team and Reward Token Lock and Vesting coded into the smart contract.

# ROADMAP

**PHASE 1** July 2022  
Madiba Platform Analysis and planning Whitepaper creation and Roadmap development

**PHASE 2** September 2022  
Smart Contract Deployment (BEP-20)  
Social Platforms creation

- Website development
- Private Sales
- Audit by Coinscope
- DeFi Listing: Apeswap
- Pancakeswap

**PHASE 3** November 2022

- Madiba Staking
- Madiba Swap Dapp
- Strategic Partnership
- Massive Marketing (Stage one)
- Coinmarketcap
- Coingecko Listing
- Madiba NFT Collection Release
- Coya Menor NFT Collection Release
- Massive Marketing (Stage two)
- Nomics Listing

**PHASE 4** January 2023

- Madiba DAO
- CEX Listing: Apeswap and CoinW
- Madiba P2E Gamezone
- Launch Diba minds
- Continuous Progress

# THE FUTURE OF MADIBA TOKEN

Although we have created a Roadmap to guide this project in the early phases, the future of the Madiba Project lies in the hands of the Madiba community whose unanimously voted decisions through the Madiba DAO, will count greatly to the growth of the project. Collectively, we will create several roadmaps to determine our best path moving forward.

# MEET OUR TEAM

**FAMOUS OLUMIDE**  
*Founder, President*

**SAMUEL DICKSON**  
*Co-founder*

**HIBATULMUIZ USMAN**  
*C.E.O*

**AZODO ARINZE**  
*C.O.O*

**CHRIS DAVID**  
*Head of Community Mgmt*

**ONOSEMUODE AUGUSTINE**  
*Advisory Board*

**MUSA MARTINS**
